When you click on your Home page ad it leads to your own url where you can include additional information and links. As much space as you want!

Why advertise on The Phoenix?

- Your ad isn't trucked into town, only for it to sit beside a mailbox. An online ad actively works for you, because it's searchable on Google and links to your website and social media.
- You're reaching a targeted audience that already supports local. The Phoenix is Peachland's professional, unbiased news source. Your dollars go directly towards our only source of local, independent journalism.
